

# Confidence LED™ Lighting Fixtures

Clean air where life happens

Featuring the SafeAirUV System

## Introducing the Confidence LED™ family of lighting fixtures

Businesses want to ensure the safest environment for staff and customers. They can now fortify their safety and cleaning regimen by providing virus-free air with the Confidence LED™ lighting products.

Combining the beauty and health advantages of LED room lighting with the COVID-killing power of the SafeAirUV System, the Confidence LED™ lighting products deliver a terrific value for most indoor environments including:

Healthcare Facilities  
Elder Care &  
Assisted Living  
Schools

Business Offices  
Restaurants  
Retail Stores  
Hotels & Casinos

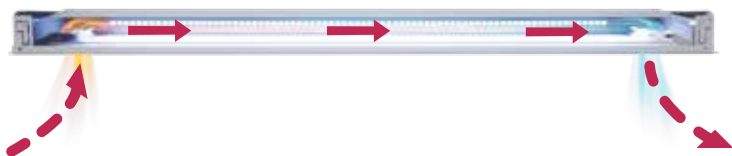

## Safety in science

The SafeAirUV System has been rigorously tested at a level 3 infectious disease lab, using aerosolized SARS-CoV-2 live viruses (the cause of COVID-19). Using a special wavelength of UV-C LED lights has been proven to inactivate virtually all of the SARS-CoV-2 and other viruses. Research reports are available at [uvhealthgroup.com](http://uvhealthgroup.com).

## How does it work?

Secured safely and out of human sight above the Confidence LED™ lighting fixtures, quiet yet powerful fans circulate the room air through the SafeAirUV LED-UV light chamber. LED-UV chips destroy the viruses in the air, then the system exhausts the safe air back into the room, continuously.

## The SafeAirUV System™

### SafeAirUV System Features

- Tested & certified to inactivate SARS-CoV-2 viruses
- Designed to exchange all room air every 15 mins
- Long-lasting LED UV-C chips, rated up to 10,000 hours
- Quiet & powerful fans
- Airflow adjustments
- Auto-on with motion detection
- Timer options
- Maintenance indicator light

### Confidence LED™ Downlight LED Features

- Energy Efficient LED Lights
- Motion sensors
- Mobile app control options
- Circadian rhythm options
- Dimmable
- UL / ETL listed

### Confidence LED™ Lighting Fixtures featuring the SafeAirUV System

- 2' x 4' LED Troffer / Retrofit Kit
- 2' x 2' LED Troffer / Retrofit Kit
- 8' and 4' Linear Pendant Strip light
- 4' Wall Mounted Up/Down
- 2' Decorative Wall Sconce
